CALVING ESSENTIALS

HUGE Savings to be made with Milk Replacer

| Volume | Type | Protein | Cent per Ltr |
|------------|---------------|---------|--------------|
| 300 litres | Whole Milk | - | 40c |
| 300 litres | Milk Replacer | 22% | 24.25C |
| 300 litres | Milk Replacer | 26% | 31.25C |

As the table shows, feeding 22% product will save €47 per calf which would save you €2350 per 50 calves.

26% product would save €1310 per 50 calves.

Price

increase due
end of FEB!

The above table is based on feeding 300 litres of whole milk/milk replacer over an eight week period with whole milk costed in at 40 cent per litre.

Milk replacer also has the following advantages:

- Consistency of product
- No antibiotic resistance build up
- Ideal for automatic feeders & contract rearing
- No disease passed on from mother e.g. (Johne's disease)
